Dear Chris & Ping,

Our China Highlights plus Yangtze River Cruise in March was a trip of a lifetime. Our participants on this trip told me that this was so much more than they could have ever imagined. Fifteen of the travelers had never been to China before so each day brought them new wonders to see.

I would credit Chris for making this trip so successful. Every day was well planned and thought out. Any issues that arose were handled *discreetly* and *efficiently*. As tour directors we know that problems arise that are out of our control, it is the way they are handled that makes all the difference. This is how you can tell the true professionals and I will gladly place myself and my group in Chris or Ping's hand any day.

Chris and Ping arranged for the most friendly and informative guides in each of our cities. We learned so much from each of them and they gave us such a thorough understanding of the cities and culture that we visited.

The hotels were outstanding and luggage handling was so effortless that it made it easy for everyone to just enjoy themselves and not worry about their bags. The flights in China made it possible to reach our destinations without a long day of bus travel; so nice! Add excellent food, great attractions and extras like a rickshaw ride and a home hosted lunch with a very interesting family and I would say it was a wonderful experience in every way.

I would highly recommend China Plus to show you China through their perspective. Thank you Chris for taking such good care of us and making many people's dreams come true.

With Much Appreciation,

Patti Manville
